

Objective

Through prior internships at several global law firms in Paris, I have acquired knowledge of both French/European intellectual property processes and policies (trademarks & design, patents, copyright and unfair competition). With a comprehensive knowledge of the different types of IP databases (ePCT, WIPO, Espacenet, INPI), I have discovered how to obtain trademarks & patents, including preparation, filing and prosecution of patents & trademarks applications.

Admitted to the Bar School of Versailles, France in 2023, I am seeking a six-month internship (January-June 2025) in American IP/IT law as part of my curriculum. If it's necessary, **I agree to find and fund a sponsor for the J-1 visa** (via [Intrax Global Internship](#) for example or any required sponsorship).

Reliable, proactive, curious and team player, I also have good research and communication skills.
